ENVIRONMENTAL CHECKLIST WAC 197-11-960

PURPOSE OF CHECKLIST:

The State Environmental Policy Act (SEPA) chapter 43.21C, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

INSTRUCTION FOR APPLICANTS:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description your can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if the question does not apply to your proposal, write "do not know", or "does not apply". Complete answers to the question now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

USE OF CHECKLIST FOR NON-PROJECT PROPOSALS:

Complete this checklist for non-project proposals, even though questions may be answered "does not apply". IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NON-PROJECT ACTIONS (part D).

For non-project actions, the reference in the checklist to the words "project", "applicant", and "property or site" should be read as "proposal", "proposed", and "affected geographic area", respectively.

A. BACKGROUND

1.	Name of proposed project, if applicable: RESPONSE:
2.	Name of applicant: RESPONSE:
3.	Address and phone number of applicant and contact person: RESPONSE:
4.	Date checklist prepared: RESPONSE:
	REGI GROE.
5.	Agency requesting checklist: RESPONSE:
6.	Proposed timing or schedule (including phasing, if applicable): RESPONSE:
7.	Do you have any plans for future additions, expansions or further activity related
	to or connected with this proposal? If yes, explain: RESPONSE:
	RESPONSE.

8.	List any environmental information you know about that has been prepared or will prepared directly affecting the property covered by your proposal? If yes, explain RESPONSE:
9.	Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: RESPONSE:
10.	List any government approvals or permits that will be needed for your proposal, if known. RESPONSE:
11.	Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. RESPONSE:
12.	Location of the proposal: Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographical map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. RESPONSE:

be

TO BE COMPLETED BY APPLICANT FOR AGENCY EVALUATION

B. ENVIRONMENTAL ELEMENTS

1. Earth

RE	neral description of the site (circle one): Flat, rolling hills, steep pes, mountainous, other: All of the above. SPONSE:
	nat is the steepest slope on the site (approximate percent slope)? SPONSE:
gra spe	nat general types of soils are found on the site (for example: clay, solvel, peat, muck)? If you know the classification of agricultural soil ecify them and note any prime farmland. SPONSE:
vic	e there surface indications or history of unstable soils in the immedianity? If so, describe.
KE	SPONSE:
De	

	g.	About what percent of the site will be covered with impervious surfaces after project construction (for example: asphalt or buildings)? RESPONSE:
	h.	Proposed measures to reduce or control erosion or other impacts to the earth, if any. RESPONSE:
2.	Air	
	a.	What types of emissions to the air would result from the proposal (i.e. dust, automobile odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known. RESPONSE:
	b.	Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. RESPONSE:
	C.	Proposed measures to reduce or control emissions or other impacts to air, if any. RESPONSE:

3. Water

	_	•
а.	911	rface
a.		1100.0

Does	s the proposal lie within a 100 year flood plain? If so, note ion on the site plan. PONSE:
	FUNSE:
	the proposal require surface water withdrawals or diversion general description, purpose, and approximate quantities
place the a	nate the amount of fill and dredge material that would be ed in or removed from surface water or wetlands and indicarea of the site that would be affected. PONSE:
the c	the project require work over, in, or adjacent to (within 200 lescribed waters? If yes, please describe and attach avails. PONSE:

Will ground water be withdrawn, or will water be discharged to ground water? Give general description, purpose and approximate quantities. RESPONSE:
Describe waste materials that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage, industrial, containing the following chemicals:, agricultural; etc.). Describe the general size of the system, the number of systems, the number of houses to be served, or the number of animals or humans the system(s) are expected to serve. RESPONSE:
runoff (including storm water)
Describe the source of runoff (including storm water) and method of collection and disposal, if any (including quantity, if known). Where will this water flow? Will this water flow into other waters? If so, describe: RESPONSE:
Could waste materials enter ground or surface waters? Generally describe. RESPONSE:
sed measures to reduce or control surface, ground, and runoff water

Ground

b.

4.	Р	lai	nts	

5.

a.	Check or circle types of vegetation found on the site:
	Deciduous tree: alder, maple, aspen, other Evergreen tree: fir, cedar, pine, other Shrubs Grass Pasture Crop or grain Wet soil plants: cattails, buttercup, bullrush, skunk cabbage, other Water plants: water lily, eelgrass, milfoil, other Other types of vegetation:
	RESPONSE:
b.	What kind of amount of vegetation will be removed or altered? RESPONSE:
C.	List threatened or endangered species known to be on or near the site. RESPONSE:
d.	Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any. RESPONSE:
Anima	Is
a.	Circle any birds and animals which have been observed on or near the site or are known to be on or near the site:
	Birds: Hawk, Heron, Eagle, Songbirds, Other
	Mammals: Deer, Bear, Elk, Beaver, Other
	Fish: Bass, Salmon, Trout, Herring, Shellfish, Other:

	D.	site. RESPONSE:
	C.	Is the site part of a migration route? If so, explain. RESPONSE:
	d.	Proposed measures to preserve or enhance wildlife, if any. RESPONSE:
6.	Energ	y and Natural Resources
	a.	What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. RESPONSE:
	b.	Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. RESPONSE:
	C.	What kind of energy conservation features are include in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any. RESPONSE:

7. Environmental Health Are there any environmental health hazards, including exposure to toxic a. chemicals, risk of fire and explosion, spills, or hazardous waste, that could occur as a result of this proposal? If so, describe. RESPONSE: 1. Describe special emergency services that might be required. RESPONSE: 2. Proposed measures to reduce or control environmental health hazards, if any. RESPONSE: b. Noise 1. What type of noise exists in the area which may affect your project? (for example: traffic, equipment operation) RESPONSE: 2. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis? (for example: traffic, construction, operations, other) Indicate what hours noise would come from site. RESPONSE:

Proposed measures to reduce or control noise impacts, if any. **RESPONSE:**

3.

8.	Land	and Shoreline Use
	a.	What is the current use of the site and adjacent properties? RESPONSE:
	b.	Has the site been used for agriculture? If so, describe. RESPONSE:
	C.	Describe any structures on the site. RESPONSE:
	d.	Will any structures be demolished? If so, what? RESPONSE:
	e.	What is the current zoning classification of the site. RESPONSE:
	f.	What is the current comprehensive plan designation of the site? RESPONSE:
	g.	If applicable, what is the current shoreline master program designation of the site? RESPONSE:

	area? If so, specify. RESPONSE:
	Approximately how many people would reside or work in the complete project? RESPONSE:
	Approximately how many people would the completed project displace RESPONSE:
	Proposed measures to avoid or reduce displacement impacts, if any. RESPONSE:
	Proposed measures to ensure the proposal in compatible with existing and projected land uses and plans, if any. RESPONSE:
sin	g
	Approximately how may units would be provided, if any? Indicate whe high, middle, or low income housing. RESPONSE:
	Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low income housing.

9.

C.	Proposed measures to reduce or control housing impacts, if any. RESPONSE:
I0. Ae	sthetics
a.	What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? RESPONSE:
b.	What view in the immediate vicinity would be altered or obstructed? RESPONSE:
C.	Proposed measures to reduce or control esthetic impacts, if any. RESPONSE:
I1. Lig	ht and Glare
a.	What type of light or glare will the proposal produce? What time of day would it mainly occur? RESPONSE:
b.	Could light or glare from the finished project be a safety hazard or interfere with views? RESPONSE:
C.	What existing off-site source of light or glare may affect your proposal? RESPONSE:

d.	Proposed measures to reduce or control light and glare impacts, if any. RESPONSE:
12. Red	creation
a.	What designated and informal recreational opportunities are in the immediate vicinity. RESPONSE:
b.	Would the proposed project displace any existing recreational uses? If so describe. RESPONSE:
C.	Proposed measures to reduce or control impacts on recreation, including recreational opportunities to be provided by the project, if any. RESPONSE:
13. His	toric and Cultural Preservation
a.	Are there any places or objects listed on, or proposed for, national, state or local preservation registers known to be on or next to the site? If so, describe. RESPONSE:
b.	Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site. RESPONSE:

C.	Proposed measures to reduce or control impacts, if any. RESPONSE:
14. Trar	nsportation
a.	Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plan, if any. RESPONSE:
b.	Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop? RESPONSE:
C.	How many parking spaces would the competed project have? How may would the project eliminate? RESPONSE:
d.	Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (including whether public or private). RESPONSE:
e.	Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. RESPONSE:
f.	How many vehicular trips per day would be generated by the completed project? If known, indicate peak hours. RESPONSE:

g.	RESPONSE:
15. Pul	olic Services
a.	Would the project result in an increased need for public service (for example: fire protection, police protection, health care, schools, other)? If so, generally describe. RESPONSE:
b.	Proposed measures to reduce or control impacts on public services, if any RESPONSE:
16. Util a.	ities Circle utilities currently available at the site: electricity, natural gas, water,
	refuse service, telephone, sanitary sewer, septic system, other. RESPONSE:
b.	Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed. RESPONSE:
SIGNA	TURE:
	ove answers are true and complete to the best of my knowledge. I and that the lead agency is relying on them to make its decision.
